Devirginized through torturous heat  
Innocence torn apart  
Incineration of a helpless soul  
Black flames, Piercing the heart  
Indulge in this physical mayhem  
Unholy orgy of lust  
Possession through demonic copulation  
Turns her to dust

Fucked by fire!

On your knees at the Devil's feet  
Reciting secret spells  
The tormentor marks your final defeat  
As you drink from the sinners well  
He appears, cloaked in fire  
The enslaver of souls  
Giving in to his burning desires  
As the death-bell tolls

Fucked by fire!

Deep into the flaming pit you'll fall  
Your soul in trapped below, forever more  
Just another human candle in His court  
Eternally bound to heed the call...you'll die!

Devirginized through torturous heat  
Innocence torn apart  
Incineration of a helpless soul  
Black flames, piercing the heart  
He appears, cloaked in fire  
The enslaver of souls  
Giving in to his burning desires  
As the death-bell tolls

Fucked by fire!
