### "Glorious Are The Ways Of Death"

There's no joy in life  
Perfection only comes with death  
The truth is found in shining, sharpened steel  
Grant my deepest wish and set me free

There's no joy in life  
Pleasure only comes with pain  
I spit in the face stinking world  
No compromise as I subside  
Fueled with cyanide

Touched by the hand of death  
A caress that bring the cure  
To this disease called life  
In ecstasy I breathe no more

There's no joy in life  
Satisfaction through demise  
Glorious are the ways of death  
Truly glorious are the ways of death
