This is just
Another day
That I
Would spend
Waitin' for
The right one
Staring
At the night
And wishin'
I could be
The one
To feel
The warm sun
Your a dream
But
I'm wide awake
I'm in Heaven
For heaven sakes
So get ready
(Get ready)
I'm ready now
(Get ready)
I could never
Need you
More than now

You were worth
Waiting for
You the one
That I adore
Ooo
Down
To your type
For once
In my life
You were worth
Waiting for
You the one
That I adore
This kind of love
You'll only find

Once lifetime
Once
In a lifetime

Tell me
That your living
In a place
Where no one else
Can find you
Tell me
That your singing
Out my name
Hoping
That I'll hear you
Tell me "no"
And I'll fade away
But this is lovin'
That I won't waste
So get ready
(Get ready)
I'm ready now
(Get ready)
I could never
Need you
More than now

You were worth
Waiting for
You the one
That I adore
Ooo
Down
To your type
For once
In my life
You were worth
Waiting for
You the one
That I adore
This kind of love
You'll only find
Once lifetime
Once
In a lifetime

What are
The words
I'm needin'
To hear
How do I know
If I'll ever

Love again
Seeing your face
Makes
Everything clear
(clear)
Clear
And I will never
Be the same

You were worth
Waiting for
You the one
That I adore
Ooo
Down
To your type
For once
In my life
You were worth
Waiting for
You the one
That I adore
This kind of love
You'll only find
Once lifetime
Once
In a lifetime
