Switchblade, do what I got to,
Vacate, coming right at you,
Slow down, before you take your last step,
This is a test of the; bumps ?n? bruises,
You know you get used to,
I choose to run with my whole crew,
Lock down, it?s gonna be a blackout,
Now it?s your turn, let me hear you shout,
YEAH! YEAH!
I?m gonna teach you, class in session,
It?s a long rope, like a flexi-fall,
Above ground, do the things you used to,

Cause if you could live like me,
Underground, lonely sights and lonely sounds,
Could you fight the darkness, all around,
No way up and all ways down,
For me this is the only game in town.

Action, everything is set to,
Explode, cause now it seems you got to,
Reload, it?s time to go solo,
Hey duck! This place is gonna blow,
Chucked down, you?re covered in dirt and,
Stay down, trouble is you?re hurt now,
You?re back, this is what it?s all about,
Now it?s your turn, let me hear you shout,
YEAH! YEAH!
I?m gonna teach you, class in session,
It?s a long rope, like a flexi-fall,
Above ground, do the things you used to,

Cause if you could live like me,
Underground, lonely sights and lonely sounds,
Could you fight the darkness, all around,
No way up and all ways down,
For me this is the only game in town.

[Do you want this?]
[Break it down now.]
[Can you feel this?]

[This is how we groove now.]
[Can you live this?]
[This is what we fly now.]
[This is how we got it going-]

Could you live like me?
Underground, lonely sights and lonely sounds,
Could you fight the darkness, all around,
No way up and all ways down,
For me this is the only game in town.
For me this is the only game in town.

Cause if you could you live like me,
Underground, lonely sights and lonely sounds,
Could you fight the darkness, all around,
No way up and all ways down,
For me this is the only game in town.
