On a journey after the sun  
we stopped on a windy beach  
that's where the peace begun  
and the chase ended  
far away from the evil reach (x 2)

and the projects in your sight  
all the nights without a sleep  
restless like a storm out on the rye  
'till was no one left to calm  
and nothing else to sweep

through the waves  
life is rolling (x 2)  
- the thoughtless air fits you well  
and it's fun to be in the waves -

guess you taught me a lot  
things and feels that wouldn't fade  
letters surely full of gut  
I never had doubts  
still you get me so amazed  
resigning to all that due to you by right  
sundering always the fairy from the gloom  
for you know is very bright  
never to expect what it can't give you

through the waves  
sometimes scared by the waves (x 2)  
- seasons changed and so did you  
trying now to avoid the waves -

find your self far away  
do you miss duty left behinds  
is there something you would says - No -  
you have time to change your mind  
wrapped up in wool walking bare  
there you were feet in the sand  
only now I realise they were endless steps  
just to reach the bend

through the waves

now you're looking (x 2)  
- the foamy curls are far away and still looking -  
trough the waves
