You better believe im leaving  
you better believe what i say  
cannot take me for granted  
but you did it anyway

It seems the dream its over  
don't think to show up again  
Despite all the amazing moments  
Life just seems the same

pre chorus  
why can't you say  
it was a lie  
it was a lie  
don't try "be friends" with me

chorus

Pray for a day of salvation  
Pray for a day instead  
Listen to your cold heart  
Is nothing you can change

verse  
Look inside your mind  
and tell me what you see  
don't waste your time just crying  
nothing is holding me to stay

interlude  
Why it has been you?  
Why did you do this?  
you can't take me down now
