When I was 5 or younger, I looked up to you
Like and older sister or brother! I always loved you.
You taught me right was good, you taught me like I was
Your pier, Ohh— Your my HERO!!!

You saved me when I was bord
When it rained and I was in doors
You lead me to a better life...

You always showed me were to go
When I was lost and all alone
And now I just want you to know
You're my Her-o...

I've grown up so much since then

Just turned 13 on June 2nd
I still miss the times you showed
You were always there for me Ohh—
You're me HERO!!!

You saved me when I was bord
When it rained and I was in doors
You lead me to a better life...

You always showed me were to go
When I was lost and all alone
And now I just want you to know
You're my her-o!

You're my hero...

Thank you, Brother...
