Kiss me with truth
I'll follow you 'till the sun stops shining
I've fallen in love
We'll dance on the clouds
And you'll clothe me in rainbows
Kiss me with truth

With you in my life, Lord,
There is a different light, it shines upon everything.
I see the world through different eyes,
And it is all because I believe.

I have undressed my soul for you,
Revealing my weakness.
I dress myself in silence.
This is all I am - will you still love me?

Though I cannot see your face,
You define what is beautiful.
I want to stay forever in your arms.
