

Danity Kane "Sucka 4 Love"

Visit "[Sucka 4 Love](#)" on MotoLyrics.com

I'm a sucka over love, smooth slick talk
Anything he wants, I could provide it
I'm a rider, fulfill your desire
Tell you, baby, what you want?

I could be there if you want
I could model that if you want
This ain't it for them scary chicks
I handle my businesses

Say, I don't know much but I know that, yeah
Tonight I don't wanna be alone
Be alone, be alone, be alone, hey, hey
Said, I gotta make some contact
With your mind, oh, one on one

And everybody knows that I'm
I'm addicted to kissing and hugging
Touching and rubbing
I'm a sucka for love, for love, for love, for love

If you're addicted to kissing and hugging
Touching and rubbing
You're a sucka for love, for love, for love, for love

I do my best to keep you here
All night long, I'm pulling out all my tricks
'Cause I don't ever want you going nowhere else
But your diggs

You feeling that, baby, oh, oh, oh
You're energy is so, oh, oh, oh
It's our destiny, don't look back
I want it like that

I don't know much but I know that
Tonight I don't wanna be alone
Be alone, be alone, be alone, hey, hey
Said, I gotta make some contact
With your mind, oh, one on one, hey

And everybody knows that I'm

I'm addicted to kissing and hugging
Touching and rubbing
I'm a sucka for love, for love, for love, for love

If you're addicted to kissing and hugging
Touching and rubbing
You're a sucka for love, for love, for love, for love
For love

What you waiting for? Baby, move a little bit closer to
me
You know you're gonna, I know you wanna
So why don't you quit playing?
I wanna see what you working with

What you working with, what you working with
What you working with, working with, working with
Working with, what you working with, what you working
with
What you working with, working with, working, working,
working with

You know I'm addicted to kissing and hugging
Touching and rubbing
I'm a sucka for love, for love, for love, for love

If you're addicted to kissing and hugging
Touching and rubbing
You're a sucka for love, for love, for love, for love
For love
