Radio

My my radio oh no  
ulla ulla ugha ugha  
Pop chuari yeah come on !

My girl my girl my girl  
Won't listen  
won't listen to my radio  
She says "Now big deal !  
Big deal ! Wanna see the picture show"  
She kicks her highheel  
sneakers all around my head  
Into the hifi speakers  
of my stereo set

My radio my radio

When I was just about this tall  
We didn't have no receiver at all  
We just picked up the sounds  
right from the streets  
For we didn't a sound machine  
When I earned my first money you know  
I rushed into the shop and bought a radio  
I still recall those younger days  
When radios were supplying  
sounds from outer space

My radio my radio

All the way from Memphis  
And California IA  
Sounds are coming to us and  
sounds are here to stay

My radio my radio

Chorus
