(Phil Lee)

That girl gets away with murder
That girl really likes to hurt him
Well, if I recall, I never ever did you that way
If I did, I'm really, truly sorry
I hope nobody ever pointed and said
When I was still in his world
Saying somebody oughta do something about that girl

That girl only wants to use him
Spend his money and confuse him
Sometimes, it might've seemed like I was doing him
like that
But I know we're in it together

I hope nobody ever whispered my name
Down some dark alley
Saying somebody oughta do something about that girl
Yeah, somebody oughta do something about that girl

Some girls you just don't trust
Some girls are always one up on us
Breaking your heart, taking him away
Well, someone's gonna get her one day

That girl really likes to hurt him
That girl really don't deserve him
Well, once or twice maybe, I hurt him like she did
But I tell you, I didn't mean to
Well, I hope nobody ever pointed and said
Danni Leigh's the one wrecking his world
Saying somebody oughta do something about that girl
Yeah, somebody oughta do something about that girl

Somebody oughta do something about that girl
Somebody oughta do something about that girl
