CHORUS:

All I wanna do

All I wanna do

All I wanna do is touch you

All I wanna do

All I wanna do

(CHORUS)

Take a look inside my heart

Tell me what you think you see

I may not be the innocent girl

that you wanted me to me

Some nights I just want a lover

Some night I don't need a friend

Some nights I just need somebody

To hold on to 'til the end, because

(CHORUS x2)

Take a look inside my heart

Tell me what you think you need

You may not see the innocent girl

That you keep inside your dreams

Some nights I just want a lover

Some night I don't need a friend

Some nights I just need somebody

To hold on to 'til the end, because

(CHORUS x2)

Take a look inside my heart

Tell me what you think you see

I may not be the innocent girl

that you wanted me to me

Some nights I just want a lover

Some night I don't need a friend

Some nights I just need somebody

To hold on to 'til the end, because

(REPEAT CHORUS TO FADE)
