There's just somethin' 'bout ya
Feels just I've always known ya
Always hangin' 'round ya
Ever since the day I found ya
I found ya

BRIDGE:

You're all I need
You're everything
You're everything I need
(You are all I need)
You're all I need
You're everything
You're everything I need
(You are all I need)

CHORUS:

You're everything I wanted
You're just another part of me
You're everything I wanted
Everything I wanted
You're everything I wanted
You're just another part of me
You're everything I wanted
Everything I wanted
Something that's inside ya
Lifts me like no other lover
Let my soul surround ya
Forever let me feel your power
Your power

(BRIDGE)

(CHORUS)

Something that's inside ya,
Lifts me like no other lover
Everything I wanted
(You're everything I wanted)
All that I wanted, all that I needed
(You're just another part of me)
You're everything I wanted
Everything I wanted
(Repeat Chorus 1.5 times)
