[Words: Finn Zierler & Jorn Lande]

Before me now  
I see a dying planet  
Captured souls  
With microchips implanted When warning came  
You stayed the same  
When warning came  
You stayed the same I am crumbling over the obstacles  
Nothing left to entertain  
The smell of burning corpses  
A new world domain I saw them coming  
A world from a far  
I saw them coming  
From a distant star I will break out from this madness

There is nothing here but sadness  
I'm dancing in the hellfire  
Hellfire  
I will break out from this madness  
There is nothing here but sadness  
I'm burning in the hellfire  
Hellfire Before me now I see a future  
A future black  
Oh come and save me  
I'm under soul attack A time of changes  
It re-arranges  
A time of changes I will break out from this madness  
There is nothing here but sadness  
I'm burning in the hellfire  
Hellfire  
I will break out, out, out from  
This madness  
I'm turning in the hellfire  
Hellfire I will break out from this madness  
There is nothing here but sadness  
I'm dancing in the hellfire  
Hellfire  
Hellfire  
There must be a way  
I'm waiting  
Waiting for the day  
Hellfire  
Hellfire  
Burns higher  
Hellfire  
Higher  
Higher  
Hellfire  
Only blood remains  
Hellfire  
There is nothing more to gain Take me
