Blackened earth and sphere pronounced stronger than
before it bleeds for all reason it bleeds for the earth
and sun i cannot recall the choices the taste of relief
feel the essence choices made out of pure lust dull the
concerns for the universe is lost will i join the circles of
madness or will i nurture the ghost the illusion of
repetition is no illusion to emanate for earth and
sphere wasted flesh and the sphere of light combining
the earth and it's retribution and i become the signs of
lust dawn of war and flesh-ridden spheres scourges of
truth and life so it ends i grind the statues in my
madness i have forgotten how this feels but i cannot
learn from ashen wounds and corruption incarnate
banner of falseness fire-cleansed flesh dull the
concerns for the universe is lost warring mentalities will
hear me
