I'll let the camera roll
So we can focus girl
On getting down tonight
Let me adjust the light
Turn on the microphone
So they can hear you moan
And we can concentrate
On every move you make

Lights. Camera. Action
Put it in my direction
Check the mic (check the mic)
(testing) Give it to (give it to) me
Lights. Camera. Action
Just follow my direction
Check the mic
J-just give it to me

Chorus
Let's make a movie girl
And your turn fool the world
And let everybody see
So _?_ to you and me
Let's make a movie girl
Cause I wanna show the world
and make everybody see
Welcome you privately

Lets make a movie (m-make a movie) (x2)

So let your inhibitions go
Give the whole world a show
We'll make the trip relaxed
Dont let one drop get wasted
G-girl you always give it
You could be a star, so vivid
so blow the world a kiss
Your such a sexy B*tch
Yeah

Lights. Camera. Action
Put it in my direction

Check the mic (check the mic)
(testing) Give it to (give it to) me
Lights. Camera. Action
Just follow my direction
Check the mic
J-just give it to me

Let's make a movie girl
And your turn fool the world
And let everybody see
So _?_ to you and me
Let's make a movie girl
Cause I wanna show the world
and make everybody see
Welcome you privately

Cause when you got a body like you do
So invite the world to see it to
Your beautiful, just do that thing you do
Cause I can't take it
When you get naked

Chorus (x2)
Let's make a movie girl
And your turn fool the world
And let everybody see
So _?_ to you and me
Let's make a movie girl
Cause I wanna show the world
and make everybody see
Welcome them privately

Lights. Camera. Action
