You probably think I'm crying over you
But not at all
Probably think I'm dieing over you
but not at all
Probably think I'm missin' you like crazy
Not at all
No, not at all
No, not at all
x2

[Verse1]
You probably think i miss you
Probably think that i need you
Hah, i don't believe you
Yea i had to leave you
You, you are the reason
I no longer believe in,
Love? Girl i don't need it
No, no you can keep it
I'm moving on i did it
I'm sorry that you didn't
When your the one that left (Ha ha)
Are you kiddin' ?
You started acting different
Stop being so persistent
You didn't wanna listen
Now your crying and shiverin'

You probably think I'm crying over you
But not at all
Probably think I'm dieing over you
But not at all
Probably think I'm missin' you like crazy
Not at all
No, not at all
No, not at all

x2

[Verse2]
What i got is better, better than what we were
I used to see your face, wait, now its all a burr

For whatever its worth
I tried to preserve
What little we had left
You left it, threw it in the dirt
Her, it wasn't until i met her
With you it wasn't pure
With her I'm so for sure
She can disagree with me
And not get on my nerves
For better or worse
You didn't last, so shes my first

You probably think I'm crying over you
But not at all (think I'm crying baby)
Probably think I'm dieing over you
But not at all
Probably think I'm missin' you like crazy
Not at all
No, not at all
No, not at all
x2

So you can keep saying that i miss you
And that i got issues, but baby you know Thats not at all
(not at all)

And you can keep saying that
I wanna probably get back with you but
Baby you know thats not at all (not at all)
