You can, be my, be my, my private dancer girl
You can, be my, be my, my private dancer girl
Could you, be my, be my, my private dancer girl
My private dancer girl, my private dancer girl

You got a question, girl I got the answer
You can be my private dancer
You can be my private dancer
(Now) you, you can be my, you can be my private

Walk in the spot, lookin' fly, at the corner of my eye,
see a shorty tryna look my way
She knows what it is, and she knows who I am so I don't
got much to say (say)
She try to leave her man, but he grabs her hand and he
screams out somethin' like hey, hey, hey
(Bring it back)
Got petrone by my side and whole lota lime, it's time to
get it started
You know what's on my mind, girl let's leave this party
(Yeah)
I'm in love with how you move your body, hey, hey
You got a question baby

You got a question, girl I got the answer (Girl I got your
answer, yeah)
You can be my private dancer (You can be my private,
girl)
You can be my private dancer (You can be my private...)
You, you can be my, you can be my private

Now I'm feelin' real good talkin' 'bout time she's on me
grindin' tryna get low
Got bottles everywhere, but somethin' in the air, let's
make the world go slow
And how you put it on me make me wanna scream out
whoa, whoa, whoa...
(Bring it back)
Got shorty by my side headed to the ride em, like let's
get this started
You know what's on my mind, girl I'm being honest
(Yeah)

I'm in love with how you move your body, hey, hey
You got a question baby

You got a question, girl I got the answer (Girl I got your
answer, yeah)
You can be my private dancer (Private dancer)
You can be my private dancer (You can be my private
dancer)
(Now) you, you can be my, you can be my private

Used to, pressure, ridin', Mrs. Private Dancer
Answer, I'm callin', I'm goin' all in
This, this feelings foreign
These, other chicks is borin'
They talking, I'm yawnin', I'm snorin'
(Bring it back)

Like you, like me, excite me, slightly
You might be, my wifey, and do this for me daily
Nightly, beside me
I'll show you all the right things
Your man so sick you need a IV

You got a question, girl I got the answer (Girl I got your
answer, yeah)
You can be my private dancer (You can be my private,
girl)
You can be my private dancer (You can be my private
dancer)
You, you can be my, you can be my private

You can be my private dancer (4x)
