Would you hate me if I don't believe you?
It's hard to love you from the signs I get from you.
Could you trust me if I said that I love you?

Is there anybody
I can see around you,
Taking me for granted,
For all the things that I do

If we go to a place we know,
I can show how good life could go
If you take it just leave all you know

If I could say I believe in fate I would
I had a dream that in my heart there was a flood
I woke up and my sheets all tangled up

Is there anybody
I can see around you,
Taking me for granted,
For all the things that I do

If we go to a place we know,
I can show how good life could go
If you take it just leave all you know

(Instrumental)

If we go to a place we know,
I can show how good life could go

If we go to a place we know,
I can show how good life could go
If you take it just leave all you know
