Always said I would know where to find love  
Always thought I'd be ready and strong enough  
But sometimes I just felt I could give up  
But you came and you changed my whole world now  
I'm somewhere I've never been before  
Now I see, what love means

Chorus

It's so unbelievable and I don't wanna let it go  
Something so beautiful  
Flowing down like a waterfall  
I feel like youve always been  
Forever a part of me and it's so unbelievable  
To finally be in love, somewhere I never thought I'd be  
In my heart in my head it's so clear now  
Hold my hand uve got nothing to fear now  
I was lost and you rescued me somehow  
I'm alive, I'm in love, u complete me and I've never  
been here before  
Now I see, what love means

Chorus

When I think of what I've had and  
This chance I nearly lost  
I can't help, but break down and cry  
Oh yeah, break down and cry

Chorus
