[Khii]

Yeah, alright alright alright
Alright, this one's kinda out there
But here we go, here we go, here we go

[Verse 1 Â– Khii]

Get in the bed, I wanna take you down
Shorty you know that I ain't proud
I wanna give you quite the sound
We go from the bed to the ground
Baby girl, I wanna lay you down
I wanna lick you, kiss you up and down
You by my side even when we ride
You never mean to do this movie style
Maybe that's why I'm your guy
You love it when I make it right
Switch positions in between your thighs
Pull your hair 'til I can't see your eyes
Back shocks leave you shocked like a surprise
Shockwaves feel from your thighs to your hips
While you close your eyes and bite on your lip
Put your nails in my back and scream to the sky

[Chorus Â– Danny Mana]

Wonder when we gonna get it down
Don't have to worry, I'ma be around
Just give me a call
Wanna know, cause I'ma make it hot for ya
Good loving is what I got
Sit back, relax, I'ma hit the spot
Just let me do my thing, my thing
Cause I'ma make it hot for ya

[Verse 2 Â– Khii]

Now we going for a night on the town
I've been waiting on this date for a while
I call your house and tell you that I'm outside
How many minutes? You say "give me five"
You come downstairs looking so fly
I wanna eat you up like some pie
So you finally hop in the ride
I don't know why, but I got that look in my eyes that

made you look in my eyes
And tell me to take you for a long ride
I take her side, but I try to avoid
My hand going up your thighs
It's too much, man I gotta stop the ride
Hop in the passenger seat with her, and make it recline
Then when I slide inside, made this girl come in my
ride

[Chorus]

[Verse 3 Â– Danny Mana]

This time I'll make it right
Take you out, give you what you like
Can't complain, girl you like my style
Get me up while I get you down
You satisfied every time I leave
Once I'm out the door you coming back to me
Wine and dine, I be treating you fine
You never get this love locked being out of my sight
To make you hurt, that I would hate to see
So fine, pretty lady you were made for me
No time for arguments, girl we just drop it
Hop up in the whip, we be riding topless
Yeah, you know this
Every time we out, shorty I be on focus
And maybe I, baby I, wanna show you the world

[Chorus Â– 2x]

Cause I'ma make it hot for ya
