Why did I have to like you so quickly
Then you tell me that you're not there with me

Wish that I could shut off all these feelings
But the pictures of hope keep on playin'

And I keep on pretending
What I could've said
Where it could've lead
All inside my head
But I keep on wishin'
Where it could've gone
Where it all went wrong
All inside my head

There's a dry
It was less than the raindrop
Wouldn't share with them I can't stop
Bend inside as I try to deny it
Wouldn't kiss me 'les I would supply it

And I keep on pretending
What I could've said
Where it could've lead
All inside my head
But I keep on wishin'
Where it could've gone
Where it all went wrong
All inside my head

And the stranger to other myself
who keeps me captive
It's overacting
And I'm so confined in
Before I set my mind and I get blinded always
reminded

Now my eyes are foggin' up
Looks like I am out of love

And I keep on pretending

What I could've said
Where it could've lead
All inside my head

(I keep on pretendin',
And I keep on pretending
What I could've said
Where it could've lead
All inside my head)
I keep on wishin'
Where it could've gone
Where it all went wrong
All inside my head
And I keep on pretending
What I could've said
Where it could've lead
All inside my head
But I keep on wishin'
All inside my head
All inside my head
(All inside my)
(All in side my)
(All inside my head)
Why did I have to like you so quickly
Then you tell me that your no there with me
