She wore black lace
and scar tissue
left me looking like a fool
thought Iâ'd done that
thought Iâ'd been there
lord she took me back to school
now sheâ's dropping me off
heartache and main
girl got game

Iâ've broke sweet hearts
like fine china
I made them paint their bedrooms blue
but what goes around
sure came around
the night that I met you
now Iâ'm hanging around
heartache and main
girl got game

sheâ's sweet like juice
from the morning sun
dripping off of that sugarcane
sheâ's soft like silk
from the garden of love
you know sheâ's driving me insane
girl got game

wanna love her like no ones done before
I give her all my love then I give some more
well I know that sheâ's the one for me how can I explain
but I knew that it was love when she was dancing in the
rain

(baby shake that thang)
girl got game
girl got game

she knew secret
incantations
she whispered in my ear
thought I knew love

like my best friend
now its just a ghost I hear
and Iâ€™m spending the night
heartache and main
girl got game

she burns red hot like a needle of love
colors flowing from the tattoos stain
she carves her name on the walls of my heart
I know Iâ€™ll never be the same
girl got game

an I love her like no ones done before
I give her all my love then I give some more
I know sheâ€™s the one for me how can I explain
but I knew that it was love when she was dancing in the
rain
(baby shake that thang)
girl got game
girl got game
girl got game

she wore black lace
and scar tissue
