"Holes"

Visit "[Holes](#)" on MotoLyrics.com

What about me
the invisible man
still in your arms
still in your plans
time will not heal me
what about me
history's clown
still working for them
still living downtown
time will not cool my fire
standing in the shadows
trying to make my move
now I got to go baby
find a love that cuts much deeper
find a life that's mine all mine
filling up the holes...
what about you younger than sin
don't care about nothing
you just want to win
time will not teach the children
what about you
so alive and so dead
cut off from your feelings
your heart and your head
time will not cool your fire
standing in the spotlight
naked and alone
now you got to go baby
find a love that tastes
much sweeter
find a life that shines all night
filling up the holes

holes
lonely heartbeat
hiding in your heart
holes
lonely dancer
dancing in the dark
holes
so many empty eyes
waiting to be filled

filling up the holes...
what about me
been here before
outside the equation
outside the door
time will not wait for no one
what about me
Iâ€™ll never give up
and if you canâ€™t see me
better fill up your cup
time will not hide my spirit standing on the mountain
trying to touch the sky
now I got to go baby
find a love
that touch much sweeter
find a life thats shines all night
filling up the holes...
holes
lonely heartbeat
hiding in your heart
holes
lonely dreamer
dancing in the dark
holes
so many empty eyes
waiting to be filled
filling up the holes ...
