Well she went outside  
just to feel the wind  
that's when she felt him  
coming back again  
in a smile in the rain  
in the cry of a baby singing along  
when she called his name  
he was already gone  
she's lookin' for  
she's lookin' for  
she's lookin' for her JohnnyO

well she went outside  
just to breath the air  
thats when she felt him  
and she knew he cared  
he was lost he was found  
rasta child in the darkness  
singing his song  
when she reached out to him  
he was already gone  
she's lookin' for  
she's lookin for  
she's lookin for her JohnnyO

don't cry  
baby don't you cry  
Johnny's flying round the room

well it's been a week  
seems like a year  
could be forever  
till he's standing here  
but his eyes are alive and they're burning

full of spirit and love  
if she keeps on dreaming  
she can feel his touch  
she's lookin' for  
she's lookin' for  
she's lookin' for her JohnnyO  
she's lookin' for her JohnnyO

don't cry  
baby don't you cry  
Johnny's flying round the room

some said he was an angel  
sometimes he thought he was the devil  
but when you come right down to it  
he was a lot like me and you  
he saw hope in the least likely places  
and he let 'im know  
if you keep believing  
you can feel his soul  
she's lookin' for  
she's lookin' for  
she's lookin' for her JohnnyO  
she's lookin' for her JohnnyO  
she's lookin' for her JohnnyO

he's flying round the room  
he's flying round the room  
he's flying round the room...  
oh JohnnyO
