We need peace
in the middle east
hell, we need peace right on this street
children killing children
cousins killing cousins
peace yeah to make
the whole world whole
Iâ'm talking bout filling every bowl
stop talking bout globalization
I wanna hear about a one world nation
one race itâ's true
weâ're one tribe
donâ't matter what you look like on the outside
no matter what they say
itâ's all about the DNA
yeah weâ're one with each other
like weâ're one with god
one with the earth
one with the sun
the ocean blue the sky above
oh people can you feel my love

it donâ't matter if your living in a box
or your lonely at the top
and you feel your life is crashing down upon you
your falling thru the cracks
you think youâ'll never get back
but together you and I could change the world
and maybe save our souls
if we only had peace

do do do do do
peace
do do do do do
we need peace
do do do do.....

we need peace
in the middle east
hell, we need peace right on this street
lovers killing lovers
crazy brothers killing crazy brothers

peace yeah let me show you how
cause baby we need it now
this place is falling apart
come on people better find your hearts
and jump and shout and sing out loud
oh baby can you feel the crowd
yeah there's a movement growing
and we where we're going
tomorrow's a place that's where we'll be
in a world that's truly free
without war hunger and disease
and people all we really need is peace

it don't matter if you're living in a cave
or you're a model on parade
and your fashionably late
in a world that's filled with hate
and you think that it can wait
but the fire is at the gate
and the room is getting hot

do do do do do
peace
do do do do do
we need peace
do do do do.....

we need peace
in the middle east
we need peace right on this street
children killing children
cousins killing killing cousins
peace yeah to make
the whole world whole
I'm talking bout filling every bowl
stop talking bout globalization
I wanna hear about a Star Trek Nation
one race its true
we're one tribe
Don't matter what you look like on the outside
no matter what they say
its all about the DNA
yes we're one with each other
like we're one with god
one with the earth
one with the sun
the ocean blue the sky above
oh people can you feel my love...

do do do do do
peace

do do do do do
we need peace
do do do do.....
