Standing face to face
It all seems out of place
And my backs against the wall
No more time to waste
Now I have to end
I have to end this all

Everytime you push me
I'm closer to the ledge
From all the hurtful things you said
Everytime you pull me
I'm losin' my head
And I know it has to end

Don't push me... tonight
Don't push me...
And everything's gonna be alright
Don't push me... tonight

If you walk away right now
You'll be better off some how
Don't push me
Don't push me

Nothing left to do
But say good-bye
And wish you good luck

But do you have a clue
Can't you see
That I've had enough

Everytime you push me
I'm closer to the ledge
From all the hurtful things you said
Everytime you pull me
I'm losin' my head
And I know it has to end

Don't push me... tonight
Don't push me...
And everything's gonna be alright

Don't push me... tonight

If you walk away right now
You'll be better off some how
Don't push me
Don't push me

I'll always know
The road that I've played
The hurtful things that I've displayed
My past got in the way

I can't change it now
I'll move ahead
It took us both to shoot this love
To shoot this love... dead

Don't push me... tonight
Don't push me...
And everything's gonna be alright
Don't push me... tonight

If you walk away right now
You'll be better off some how
Don't push me
Don't push me, yeah
Don't push me
Don't push me
