Sitting in her class
Sophisticated anit-social bratt
She' never speaks a word
That's why she's sitting in the back
No one knows her name
and never knew that she exsisted
Then one tragic day
She came to school and went ballistic
With an AK in her right hand
Shot the cheerleading squad, then ran
There all dead, there all dead
She's alone in her class
There's no one left for her to blast
She's always kickin ass
masicistic gothic dressed in black
No one one knows her name
and never knew she was sadistic
On april 20th, she came to school and went ballistic
With a rifle in her left hand
She blew away the football team
Then RAN
There all dead, there all dead
She's a bitch she hates everyone
She's one of those anti-girls
Pesimistic and Synical
She's a victim of this lonely world
now she hates me..
shes a little insane
now shes crazy..
shes cookie ookie dookie..
There all dead, there all dead
She's a bitch she hates everyone
She's one of those anti-girls
Pesimistic and Synical
She's a victim of this lonely world
She's a bitch she hates everyone
She's one of those anti-girls
Pesimistic and Synical
She's a victim of this lonely world
