[Chorus:]

She's miss california hottest thing in west L.A.
House down by the water sails her yacht across the bay
Drives a marinello hollywoods her favorite scene
Loves to be surrounded with superstars that know her
name.

[1st verse]

She's a rich girl from the top of the food chain
love and material things, kinda lonely
til i met her at the grammys 10mil on a diamond ring
she invites me to spend a day on the jet skies
at first it didnt mean a thing
then she told me im the one that she searched for
it was hard to believe.

[chorus]

[2nd verse]

In a couple a days she had me a bracelet
made from harry winstons place
went horseback up to the mountain top
showin me the land shes got
well its alright but something else is on your mind
looking past all that shines now the tears are running
thru
all those things are nice but its not why im here
i will wipe away your tears simply by just loving you.

[chorus]
