I'm coming to see
The shining in your eyes
That reflecting they are
The light, that it's in you

And to feel, your tender lips
That they make me say
My dear, I love you

Let me turn out the lights
I want to stay, just alone with you,
And to love you more
Only one more time

Today you are, more tender than ever
The sweet of your love,
Has stayed in my hart

It's this flower, and all these words
Their coming to say, my love, that I need you

Let me... time
And to love you more, only one more time
