Lonely, I was so lonely
Without affection, without a love

Nothing, ho no, nothing I cared fore
It was so sad, I was so blue,
I was so blue.

The day I saw you the sun came in to my life

That was the day that I met you

That I met you

All now, all now is shining
With all your tender
With all your love

Nothing, ho yea nothing I need now
If you are with me now
It is my happiness, it's my happiness.

The day I saw you...
