The light of day is fading fast outside
I cannot hide the way I feel inside no
I learn to live with something I can't find
I will never learn
I will take my turn

I can't forget the things she said to me
So deep inside my heart they can't break free
I can see your eyes
I can see what you're after
And it's no surprise to me

Chorus

If you abandon me tonight will last forever
I'm stranded here inside this desert called my soul
If you abandon me you turn your back forever
You will abandon me

I'm still alone but yet I hear her voice
It takes my breath away I have no choice
I can see you eyes
I can see what you after
And it's no surprise to me

Chorus

If you abandon me tonight will last forever
I'm stranded here inside this desert called my soul
If you abandon me you turn your back forever
You will abandon me
You will abandon me
