We're standing alone inside the night  
Listen the wind is calling  
To the dangerzone beyond the light  
And suddenly we are falling

But there ain't no stopping us now  
I don't know if I'll be back tonight

It's just a machine inside of my head  
And now all the wheels are turning  
I'll think of the words we never said  
And deep in my heart it's burning

But there is no stopping it now  
We're gonna make it somehow  
You wait tonight  
And we're waiting for the light

Into the fire we will run  
Into the sound of distant drums  
When you're walking alone in a dream  
On a highway to nowhere  
Nowhere tonight

I can't stand the heat 'cause we're getting too close  
The temperature's rising higher  
But the fear has gone and we've got to go on  
Never true was the fire

But there ain't no stopping us now  
We're gonna make it somehow  
You wait tonight  
And we're waiting for the light

Into the fire we will run  
Into the sound of distant drums  
When you're walking alone in a dream  
On a highway to nowhere

Into the fire we will run  
Into the sound of distant drums  
When you're walking alone in a dream

On a highway to nowhere  
Nowhere tonight

Into the fire we will run  
Into the sound of chest and drum  
When you're walking alone in a dream  
On a highway to nowhere

Into the fire we will run  
Into the sound of chest and drum  
When you're walking alone in a dream  
On a highway to nowhere  
Into the fire

Into the fire we will run  
Into the sound of chest and drum (into the fire)  
Into the fire we will run  
Into the sound of chest and drum
