"Kiss the rain"

She stands alone inside the darkness
Rain upon her face
Holding close the photograph
That's by her heart embraced
She's calling out his name
She whispers to the rain
When will I see you again

Now he's gone
She kissed the rain
He blessed the sun
She kissed the rain again

The miles that lie between them now
And still their love remains
And he recalls the night he left
He kissed her in the rain
He's standing in the sun
Where have those years gone
How can he carry on

Now he's gone
She kissed the rain
He blessed the sun
She kissed the rain again

Now you're gone
She kissed the rain
He blessed the sun
She kissed the rain again

The autumn leaves outside her window
The autumn sun takes her back again
And she remembers, he came
In her hands he kissed the rain
And in her heart
The memories will remain

She kissed the rain
He blessed the sun
She kissed the rain again

Now you're gone
She kissed the rain
He blessed the sun
She kissed the rain again

She kissed the rain
He blessed the sun
She kissed the rain again
