Chorus:

You're not the girl I used to know, you're a shadow of  
yourself  
I think I lost you long ago, like a book that's left a shelf  
I hear the footsteps down the hall and I know someday  
that will be you  
Leaving me for good

Verse 1:

I've been sitting here for two straight hours watching  
you asleep  
Wishing I could talk to you  
There is no denying we both have emotions running  
deep  
Oh! If I could talk to you  
Cos I'm scared, cos when I try to take your hand you  
are not there  
And even though I see the signs you think I'm just  
scared  
Gimme one reason why I should hide my fears  
When it's killing me inside

Chorus:

You're not the girl I used to know, you're a shadow of  
yourself  
I think I lost you long ago, like a book that's left a shelf  
I hear the footsteps down the hall and I know someday  
that will be you  
Leaving me for good

Verse 2:

We have together for so long, you seem a part of me  
Just how did this all go wrong?  
And you say you gave me your best just to make it work

Just how did this all go wrong?

Cos I tried, see my eyes are empty from all the tears I  
cried  
Since this "perfect" love is hardly satisfied  
Gimme one reason why I should hide my tears  
When it's killing me inside

Chorus:

You're not the girl I used to know, you're a shadow of  
yourself  
I think I lost you long ago, like a book that's left a shelf  
I hear the footsteps down the hall and I know someday  
that will be you  
Leaving me for good

Bridge:

And if I ever come across a girl like you again  
I will never ever let my emotion show  
I'll just look the other way; I don't care what you might  
say  
Cos I'm not so sure how much of this my poor heart can  
take

Chorus:

You're not the girl I used to know, you're a shadow of  
yourself  
I think I lost you long ago, like a book that's left a shelf  
I hear the footsteps down the hall and I know someday  
that will be you  
Leaving me for good

Repeat Chorus till fine...
