Verse 1: BulletProof

I'm full of that raw

???? a cop cho choo chop

I live and die 17 shots without a glock

Bought downtown

When I hit your spot I'm tearin it down

Chopper City be coming playing with over a hundred rounds

SK's, AK's, 10 and 4's, G's and Mac's

All you can do is put it on your fuckin back

Call ???? pronunciation might sell ounce that dope

I see nothing but cars Eclipse and Camaroes

Times are hard to explore I made my own fort

Fifteen hundred pearl white ain't that a bitch?

Doing this uptown behind a tint

Nigga chopper

Better watcha

You slip we gotcha

They say the richest nigga in the click slip they lose

Hang it up your on the news

Partner sings the blues

Can't be no baller if your a hoe tryin to slang yah-yo

Smart tymer thought I'm the one tryin to see their neck broke

Flip by Calliope

Fo-fo's

Hurrah my fo-fo's

My niggaz in public run in the store bank froze
