[Leonel Valdez/Osiris Di Castro/Mario Linhares]

I hope you hear my cry  
Because I've been calling you before  
I just want your voice on phone

I think where can you be  
If you know what I am feeling  
Girl give me just one more chance

O baby I need to be the one...  
Who has those lips to kiss?

A cold invades my soul  
And I wonder you're so far  
Darling come and heat my heart

For many thousand roads  
I will ride to be with you  
Just to be the best for you

O baby tell me I ain't wrong  
Who has your body to touch now?

Open your eyes to me  
Open your heart to love  
Give a chance for we both  
Open your mind to me  
Open your hands to hope  
Give a chance for our love
