"Sparked by sentience
In me, immense, the globed sky
Marked by death in life
The we hatches from the I

Seek thee in me
Find me in thee
Izzu Tahuti
Bearing Horus transfigured

Catacrusis
Metanova hurled down the dimensions
Catacrusis
Raving madness only to the profane

Immanent transcendence
Bearing down, I bring the fire
The misguided shrouded
In blissful nescience

Seek the in me
Find me in thee
Izzu Tahuti
Bearing Horus transfigured

Transcendent immanence
Bearing down, I bring the fire
My corpse awaits
The universe my grave

Catacrusis
Metanova hurled down the dimensions
Catacrusis
Raving madness only to the profane"
