If we forget how to smile, we will tremble and fall.  
This is a lifelong battle. We will win it all.  
Here's the upset, here's the upset, I've fallen on my  
head.  
Life gets harder and harder but we will finish it.

This is bullshit! I'm sick of it! Let's get to the bottom of  
the ditch!  
We'll see the end! We'll see the end! It will be bright  
and infinite!  
I want to see where this path takes me, I can't be blind,  
I'm gonna see!  
We'll see the end! We'll see the end! It will be so bright  
and vivid!

Looking back at our tracks, this is a long road we've  
traveled.  
The sun is shining on our souls. We're still so close but  
far away.  
We don't back down, we'll find our own way.

These are setbacks that try to dig me in a hole.  
I won't let this get the best of me, I will conquer all!  
Here's the upset, here's the upset, life is a fucking trip.  
We'll see the end! We'll see the end! We'll make the  
best of it!
