"Circular Ellipsis"

A remain to begin
It's been years of silence
You saw me falling
Now you disappeared

She came from the shadows
And crossed over me
But never heard clear
My agony

A circular shadow
An ellipsis dream
You hear the answers
I'd never seen clear

Your mysterious light
Surrounded my fears
I felt you crawling
Under my skin

I thought you'd be clearer
Don't know what you seek
It's time for the answers
You'd always heard clear
