Born of laughter  
Strangled by sin  
No remorse  
Mistreat the soul again  
No features  
The blur of things denied  
No return  
The cross to bear is my own  
Just one sip and life returns  
Razorfever  
The pollution of your narrow perception  
Read into the lines of men's work  
Degeneration: let the truth be known  
Numb the pain with the liquid of fire  
Razorfever burns  
Born a desperation's child  
Admist the last descent  
Fierce as that of angel's wrath  
To lay the soul to rest  
Just one sip  
Just one more  
Just one  
And so my world can be restored.
