In orbit they pass around you - the memories from
abandoned past
Images from within your mind bring unknown feelings
into your veins
Delve into thy twillight past, a voyage done before
The borderland 'twixt life and death - existing
evermore
Emerging from material guise - an ever-living soul
Thy spirit lives forever more, in spite of aim or goal
The forces of your vital mind deteriorates vaguely
As you're about to pass away The darkness that
Surrounds you fades...
You reach out to touch, to feel the eternal
Forgiveness for thy impure soul
Desperation fills your mind - approach the centre
Centre of infernal salvation and infernal death
Enter to the plain of life, to knowledge loomed through
time
An ever-living certainty where life is formed to chime
Foolishness and wisdom walk gently hand hand in
hand
Embraced in darkest universe as contraries blend as
one
Fear fills your mind on this ongoing journey
Journey to a thousand secrets untold
Credulous at first to this place of wonder
Wonder's so real - it could be an illusion
Through dark veils of destiny - Realm of shades
revealed
Through dark veils of destiny - Infinite life concealed
Your soul now levitates slowly and below your body
fades
Your consciousness remains but thy skin will soon rot
away
Visions from an obscure reality appear as your soul
departs
This once so undisturbed and now frail and feeble
world
Brought forth, the abyss now appears -
Foulmouthed temptations call me near
Dark visions laughing over me - if swallowed I will
cease to be

Tempted to this world beyond - eager to break the
bond
The sacred promise of an earthly stay - now broken as
you writhe in dismay
Come to where all
