Crown the impulse that deliberately fall  
Defeat in spiritless action  
Isolation - burn the greenwood  
Order of the vertical path  
Descendent  
Crawl in the remnants of one thousand lies  
Restaging  
Torching a world that was left behind  
Zodiackyl light  
Cross the sharpest void  
Deride the embers of his faith  
The bringer that on million horses ride  
Waiting for the call within the spark of sin  
Ever reminiscent of the coming of storm  
Can you see the cosmic face in which disorder lies  
Burning of opression  
The inventor  
Is the killing hand  
Be that of the darkest sin  
To frustrate hope and love  
I shall not be blinded  
I shall not be forced  
Resistance  
Feasting on debris from celestial wars  
Burning in the sky  
Beyond the realm of time  
Sequence of the nucleus  
The glowing dust in flight  
Zodijackal light  
And they ride, they ride  
The drama takes the lead  
The beast of heaven their guide  
Racing through the vastness  
Constellation disarray  
That darkness could not have existed  
That bares no witness to the light  
Sweet endless  
Perpetually pronge through interior vaults  
So seamless  
Joints of time cannot shackle the beast  
Zodijackyl light.
