Anytime I see you I start to breakaway,
Its ever since you have been gone,
Coz behind my eyes it's all because of you.

Now your gone,
I'm so addicted,
Just where does your heart lie (for me?),
I try to walk away,
But then,
You found me.

I would hate myself if I lost you,
Do you hear me?
We are both just a,
Beautiful disaster.

Now your gone,

I'm so addicted,
Just where does your heart lie (for me?),
I try to walk away,
But then,
You found me.

Even though I am miss independent,
I will still be low, all for you.

Now your gone,
I'm so addicted,
Just where does your heart lie (for me?),
I try to walk away,
But then,
You found me.

Looks like I'm addicted,
To you.
