When you thought I would cry,
You were so wrong,
When you thought I would stay,
Your mind was so wrong,
I'd most likely runaway,
With no place to stay,
Looks like you Aint cool,
All you do is sit and drool.

Get out my face,
You are a disgrace,
Like you would win the race,
You're also a very bad showcase,
So get your life right now.

You try to speak but all I see,
Is your mouth go blah blah blah,
Will you just get lost,

I don't want you near,
Now you go and disappear.

Get out my face,
You are a disgrace,
Like you would win the race,
You're also a very bad showcase,
So get your life right now.

So annoying,
Such a pain,
What will make you get out my brain?

Get out my face,
You are a disgrace,
Like you would win the race,
You're also a very bad showcase,
So get your life right now.

Just get lost.
