Das Sein -

Die Spanne zwischen Geburt und Tod.

Inanimation on whole Emerdiale,

wide desolation presents Zylef.

From the depths of misery I see them,

I see them in the depths of misery,

the greatest pest.

Erl sung und Verdamnis.

Calls from the deep, they show...

They show the deliverance coming.

Falling sick in a neverending dream

Of their Smerath.

Wege...die unabl ssig weiterf hren

Enden auf dem Schlachtfeld!

And now we stand beside their tombstone,

for a new battle is won,

forever!

Die Zerrbilder unseres Erdenzweckes,

sind Launen eines wetterwendigen Tyrannen.
