[music & lyric: barthold]

You went out on a voyage  
And to me you did arrive  
The fears that you once burried  
I'll make them come alive  
Mind of me - We'll dream to be  
Creation into soil to suffer

Your past falls out of sight  
And you wish that you could see  
The memories you once sheltered  
I'll turn them into me

Mind of me...  
For this immortal coil

The only world I ever knew  
Is the world that withers and fades  
Take your utopia we'll disemble it again  
A new age in oblivion  
And a place to hide your mind  
I'm a place of none existens  
That you'll never find

Mind of me...  
For this immortal coil

The only world...
