(not completely right i don't think, not sure.....i gussed
on a couple of bits
The rest is right as far as i can hear)

I get up (he gets up)
To see you on a waiting fee
I get down (he gets down)
All of them staring at me funny except you
And I fail to see why I should care
That you have had 36 years of pain to share

Did what I did what I did for you
You've got the best of me
Did what i did for you
You've got the best of me

I get up (he gets up)
See you lookin perpetually
I get down (he gets down)
To watch you fail spectactually
Oh boy

And I fail to see why I should care
That you have had 37 years of pain to share

Did what I did what I did for you
You've got the best of me
Did what i did for you
You've got the best of me

Did what I did what I did for you
You've got the best of me
Oh did what i did for you
You've got the best of me
MammaMamma
