Frozen seasons shift as I come of age
My body transforms elite, eyes to pierce your soul
Ears to hear your fading heart
And teeth to tear your presence from this earth

I come before you as a wolf among sheep to feast
Rage and fury, unbeknownst to humanity
I grasp the throat and rend the world to silence
Call out to the darkened sky, hail these gifts from lunar
phase
Change my form and let this hunt begin
Power succumb to me, wolfen spirit might
Beware the howling wind for death shall reign this
night

Charging through the snow, the winds flow through me
Insatiable hunger grows eternally
Fire raging in my soul, burning ancient embers old
The elders warned them, prophecies foretold
Stalking death upon you all, so close, I smell the fear
You were born only for my pleasure
Scent of voluptuous flesh beckons me to fulfil desire
As I sink these teeth into your heart

Immortal spirits guide me, towards destiny within this
realm
Chaos unleashed
Immaculate bloodline courses through savage veins
Submit your last breath as wolf and man unite

Countless victims draped in blood
Discarded empty shells forgotten souls cry out
Darkness is mine
A hunter in the night to prey upon young and old
No one can escape the wrath that now unfolds
Slaughtering of weakness
Conviction of the meek, my standard ascends the
throne
Chosen path now followed hard, to rule with tooth and
nail
Ripping mortals endlessly, bloodline shall prevail
Scattered remnants of ashen bone, a world I now

dictate

His so - called garden of Eden now laid to waste
