"Fucked Up And Ready To Die"

Stripping on twisted knives in miscreation
Norway be my grave
Increasingly insecure
Combine with stagnant joy
Half my life in your name
Fucked up and ready to die
Death just takes a moment
Suffering is forever
Let's leave this sinking ship together
The water of life will fill your lungs
Drink 'till you bleed
When contradictions fail to soothe
Half my life in your name
Fucked up and ready to die
Murder only takes a moment
It'll last you forever
